Recent Viet Minh efforts to prevent ICC truce team personnel from visiting old French military airfields coincides with significant increase in activities at Bac Mai, Dien Bien Phu, Dong Hoi, Kien An and Lao Kay airfields. Since fall 1954 numbers of German radar-controlled 88mm high-velocity artillery have arrived in Viet Minh areas.

25X1D1a & NSA 25X1D1a Viet Minh have been attending weapons & NSA 25X1D1a familiarization courses on above 88's. & NSA 25X1D1a & NSA 25X1D1a & NSA Has 25X1X7 any info on any of above airfield developments which 25X1X7 & NSA & NSA indicates possible preparation for military use? Any info on status of "Viet Minh Air Force?" Extent of rehabilitation

of airfields in Viet Minh territory?

In past two months, "geologic exploration" in the Tsaidam Basin has reached unusually large proportions. now the center of operations for more than 1,000 geologists and large numbers of support personnel. A minimum of several hundred trucks are supporting prospecting activities in the In past six months, Charkhliq-Golmo road rebuilt, Tsaidam.

EIDER RDP70T00666R000100020007-6

Tsinghai-Tibet road under continuous improvement, construction begun on a road from Yumen oil fields across Humboldt Range to Golmo, and new road under construction along northern rim of Tsaidam from Timurlik to Makhai. Chinese have publicized oil exploration but ORR thinks that this is not a major objective as ChiComs could survey oil resources with a fraction of above number of geologists and several aircraft operating from temporary airfields at Yushu and Sining. Precedence for this in Sinkiang where aircraft and fewer geologists worked much larger areas. Has any info which elaborates on nature of ChiCom undertaking?

Construction of triangular road net in Tibet south and west of Lhasa has made considerable progress recently with most difficult section, Lhasa-Shigatse in advanced stages of Engineering units now engaged in preparatory construction. construction of bridge across Tsangpo 65 miles east of Shigatse. Shigatse-Gyangtse road survey and basic construction far 3,000 forced laborers of total project force of 6,000 employed on Lhasa-Gyangtse-Yatung main trade route to India via Chumbi valley. Wirelines accompanying road construction. Recent increase in modest gasoline and rice shipments to Tibet from Calcutta attributed to this undertaking. Some suggestion that road construction may eventually extend from Shigatse down Arun River valley to Nepal border. Has any info which elaborates on

& NSA 25X1X7

this ChiCom undertaking?
